*An accredited reprocessor or exporter that handles 400 tonnes or less is defined as "Small" and over 400 tonnes as "Large".

The Public Register is periodically updated to reflect any changes to the status of reprocessors or exporters, but may not be up to date at any given time. Therefore, it remains the responsibility of all producers or schemes to exercise due diligence in ensuring that the evidence they are purchasing (i.e. PRN's or PERN's) is valid and that it has been issued by a reprocessor or exporter who is accredited.
