How to apply

To apply for a mobile plant licence you must fill in this application form, which we have designed to be as straightforward as possible. It asks for the information we need to decide if you can have a waste management licence. If you fill in the form accurately, it will help us deal with the application more quickly.

Please discuss your proposals with us before completing this licence application form.

You will need a mobile plant licence if you want to treat or dispose of waste with a plant that

- is designed to be moved from place to place, or
- can easily be moved from place to place.

When you need to fill in this form

There are currently six types of mobile plant which we can licence:

- an incinerator which is an exempt incinerator
- a plant for the recovery, by filtration or heat treatment, of waste oil from electrical equipment
- a plant for the destruction by dechlorination of waste polychlorinated biphenyls or terphenyls (PCBs or PCTs)
- a plant for the vitrification of waste
- a plant for the treatment by microwave of clinical waste
- a plant for the treatment of waste soil

If the applicant proposes to use any other type of plant they may need a site licence. Please contact this Department for advice.

When you make the application, please make sure you

1. Answer all the questions. If you leave anything out, we will have to get in touch with you for the information. *If any of the questions do not apply to you, please write 'Not applicable'.*
2. Send the correct fee with your application form.
